3. Aims

- To have in place a Safeguarding and Child Protection policy and related policies that outline clear procedures to ensure that we meet our responsibilities for safeguarding and promoting the welfare of all children.
- To ensure compliance with all relevant legislation connected to this policy.
- To work with other schools and the local authority to share good practice to improve this policy.

We are aware that Proprietor should ensure there are appropriate policies and procedures in place for appropriate action to be taken in a timely manner to safeguard and promote children’s welfare.’ (Keeping Children Safe in Education 2022: Statutory Guidance for Schools and Colleges (DfE))

4. Introduction

Poplar House School is proud to operate a child center and coordinated approach to safeguarding. Poplar House School staff are advised to maintain an attitude of ‘it could happen here’ where safeguarding is concerned, and they should act immediately and not assume a colleague or another professional will take action. Safeguarding and promoting the welfare of children is defined for the purposes of this policy as: protecting children from maltreatment; preventing impairment of children’s mental and physical health or development; ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and taking action to enable all children to have the best outcomes.

All concerns, discussions and decisions made, as well as the reasons for those decisions, should be recorded in writing. Clear records will also help schools respond to any complaints.

If staff have allegations or concerns about another member of staff (including supply staff, volunteers and contractors) posing a risk of harm to children, this should be referred to the Headteacher. If the concern is about the Headteacher, it should be reported to the Executive Head Teacher or Director Of Education.

If they have concerns about safeguarding practices within their school, staff should raise the issue with the SLT or follow other whistleblowing channels if necessary.

At all times, the school acts in the best interests of the child and will take action to enable all children to have the best outcomes. Our school creates a culture of safety, equality, and protection, through a culture of listening to children and young people.

Poplar House School has, and continues, to take advice from Government sources as regards Covid 19 and has created a risk assessment plan to mitigate against (as much as is reasonably possible) transmission. Poplar House School is committed to deliver PSHE sessions weekly to support emotional health.

We believe **Safeguarding** is the policies and practices that we employ to keep children safe and promote their well-being. Safeguarding includes governance; security of the school buildings and grounds; safe recruitment of staff; SEN and inclusion; e-safety; health and safety; curriculum; attendance and punctuality; and all school policies.

We believe **Child Protection** is the activity that is undertaken to protect children who are suffering or likely to suffer significant harm.

We are committed to safeguarding and promoting the welfare of all children and take account of the information contained in the DfE documents '**Working Together to Safeguard Children**' and '**Keep Children Safe in Education DfE 2022: Statutory Guidance for Schools and Colleges (DfE)**' as the safety and protection of children is of paramount importance to everyone in this school and we work hard to create a culture of vigilance. At all times we will ensure what is best in the interests of all children. Safeguarding and promoting the welfare of children (everyone under the age of 18) is defined as:

- protecting children from maltreatment.
- preventing impairment of children's mental and physical health or development.
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care.
- taking action to enable all children to have the best outcomes.

(Keep Children Safe in Education: Statutory Guidance for Schools and Colleges (DfE 2022))

We believe that all children have the right to be safe in our society. Therefore, we recognise that we have a duty to ensure arrangements are in place for safeguarding and promoting the welfare of children by creating a positive school atmosphere through our teaching and learning, pastoral support and care for both pupils and school staff, training for school staff and with working with parents/carers. We teach all our children about safeguarding. We acknowledge that safeguarding is an ever-developing picture and that is a statutory requirement to keep up to date with new information in order to understand the risks that children are facing. Therefore, we are constantly reviewing safeguarding in order to ensure that we are doing enough to keep children safe by reviewing policy and training, the curriculum, mechanisms for disclosure, pupil voice and our safeguarding culture.

We understand that 'safeguarding is what we do for all children, whilst child protection refers to the procedures we use for children at risk of significant harm or who have been harmed.'

We work hard to ensure that everyone keeps careful watch throughout the school and in everything we do for possible dangers or difficulties. *We always want all children to feel safe.* We want to hear their views of how we can improve all aspects of safeguarding and from the evidence gained we put into place all necessary improvements.

We are particularly alert to the potential need for **early help** for a child who:

- is disabled and has specific additional needs.

- has special educational needs (whether they have a statutory education, health, and care plan).
- is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups.
- is frequently missing/goes missing from care or from home.
- is misusing drugs or alcohol themselves.
- is at risk of modern slavery, trafficking, or exploitation.
- is in a family circumstance presenting challenges for the child, such as substance abuse, adult mental health problems or domestic abuse.
- has a family member in prison or affected by parental offending.
- is at risk of honour-based abuse such as female genital mutilation (FGM) or forced marriage
- persistent absence from education (including absences for part of the day)
- has returned home to their family from care.
- is showing early signs of abuse and/or neglect.
- is at risk of being radicalised or exploited.
- Children requiring Mental Health Support
- Children who are LGBTQ+

(Keeping Children Safe in Education: Statutory Guidance for Schools and Colleges (DfE 2022))

We want all our children to achieve their full potential by:

- being as physically and mentally healthy as possible.
- experiencing good quality education opportunities.
- living in a safe environment.
- learning and working in a safe environment.
- experiencing emotional wellbeing.
- feeling loved and valued.
- receiving support from a network of reliable and affectionate relationships.
- learning to look after themselves.
- coping with everyday living.
- having a sense of identity and a positive image of themselves.
- developing their confidence and their interpersonal skills.

We recognise that the safety and protection of pupils is the responsibility of all **school staff** as they are in a unique position to notice injuries, marks or bruises when children are undertaking certain activities which might indicate a child has been abused. We believe that we must report and investigate all injuries for the safety and protection of the children in our care.

5. Legal Framework

There have been many changes in legislation and statutory guidance in recent years. This includes the Children Act 2004, which, under section 11, places a duty on local authorities and agencies to ensure that they consider the need to safeguard and promote the welfare of children and young people when undertaking their function and delivery of services. Most recently the introduction of the Children and Social Work Act 2017 dis-established Local Safeguarding Children's Boards and introduced a new safeguarding framework. Working Together to Safeguard Children 2018, statutory guidance covers the legislative requirements and expectations on individual services to safeguard and promote the welfare of children and young people; and set out a framework for Safeguarding Partnerships, as reference in Keeping Children Safe in Education DfE 2022, to monitor the effectiveness of local safeguarding services.

We believe this policy should be a working document that is fit for purpose, represents the school ethos, enables consistency and quality across the school and is related to the following legislation:

- It is essential that all staff understand the importance of challenging inappropriate behaviours between peers, many of which are listed below, that are actually abusive in nature. Downplaying certain behaviours, for example dismissing sexual harassment as "just banter", "just having a laugh", "part of growing up" or "boys being boys" can lead to a culture of unacceptable behaviours, an unsafe environment for children and in worst case scenarios a culture that normalises abuse leading to children accepting it as normal and not coming forward to report it.

- lead the development of this policy throughout the school.
- work closely with the Executive Headteacher and the ISQIC.
- make effective use of relevant research and information to improve this policy.
- provide guidance and support to all staff.
- provide training for all staff on induction and when the need arises.
- keep up to date with new developments and resources.

- review and monitor.
- annually report to the ISQIC on the success and development of this policy.

6.14 Role of Parents/Carers and Partnerships with Parents/Carers

Parents/Carers are:

- asked to work hard with the school to establish excellent home-school relationships.
- aware that we have a responsibility for the welfare of all our pupils.
- aware that we have a duty to involve Social Services or any other agency if we have any concerns about a child.
- aware that under certain circumstances we will involve an agency without informing them if we think that by so doing, we will place the child at even greater risk.
- aware that they will be kept up to date with all our actions

Annually we will ask parents/carers if:

- they have any concerns about the safety of their child when in school.
- they feel enough time is given for children to learn how to keep safe.
- they know who talk to if they have any concerns.
- they feel their views are listened to and acted upon

The Designated Safeguarding Lead:

- will ensure that parents/carers are aware of this policy.
- will respect parents/carers and children's need for privacy.
- will respect families from different backgrounds and cultures if it does not put the child at risk.
- when making a referral will share all information with parents/carers unless it places the child at risk.

6.15 Role and Partnership with Agencies

We work in close partnership with all school agencies as the safety and protection of children is of paramount importance to everyone in this school.

7. Types of abuse and neglect

We recognise that the safety and protection of pupils is the responsibility of all **school staff** as they are in a unique position to notice injuries, marks or bruises when children are undertaking certain activities which might indicate a child has been abused. We believe that we must report and investigate all injuries for the safety and protection of the children in our care. If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken, following their child protection policy, and speaking to the designated safeguarding lead or a deputy.

We acknowledge that children can be harmed **physically, emotionally, sexually or by neglect**. It is our duty to report any concerns that we have of child abuse as the health, safety and protection of all children is

paramount. We are aware that if abuse is suspected by another child then child protection procedures will be applied to both children.

All school staff and governors have undertaken training in the early identification of abuse and neglect and are aware of the indicators so that they are able to identify cases of children who may be in need of help or protection. In doubt, they will consult with the designated safeguarding lead.

School staff are 'aware that abuse, neglect and safeguarding issues are rarely stand-alone events that can be covered by one definition or label. In most cases, multiple issues will overlap with one another.'

We are aware that risk indicators that are frequently found in cases of child abuse is not proof that abuse has occurred, but they must be regarded as indicators of the possibility of significant harm.

We must be aware that the absence of such indicators does not mean that abuse or neglect has not occurred.

We must be alert to the following **non-specific signs** which may indicate that something is wrong with a pupil:

- Suspicious bruises with unsatisfactory explanations
- Suspicious injuries with unsatisfactory explanations
- Self-injury unsatisfactory explanations
- Age inappropriate sexual behaviour
- Significant change in behaviour
- Significant change in attendance
- Aggressive and attention seeking behaviour
- Extreme anger or sadness
- Depression
- Lack of self-esteem

We must be aware of the potential risk to children when a child appears frightened of either parent/carer or of other associated adults or children.

We must be alert to when a parent or carer:

- has a record of being persistently late in collecting their child from school?
- appears to be misusing alcohol or drugs.
- appears to be having mental health issues.
- appears to be in a domestic abuse relationship.
- persistently avoids treatment for their child's episodic illnesses.
- persistently refuses to allow home access to healthcare or social services.
- frequently complains about their child and in the child's presence.
- frequently fails give any form of attention or praise to child.
- has unrealistic expectations of their child.
- develops a relationship with a previously known or suspected child abuser

We ensure that school staff are 'well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one.'

We are aware that children who have 'suffered abuse or neglect or other potentially traumatic adverse childhood experiences', may experience a lasting 'impact throughout childhood, adolescence and into adulthood'. Children's experiences can have an impact on their mental health, behaviour and education.

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others (e.g. via the internet). They may be abused by an adult or adults or by another child or children.

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning, or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing, and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Child Criminal Exploitation

Child criminal exploitation (CCE) is a form of abuse where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate, or deceive a child into criminal activity, in exchange for something the victim needs or wants, and/or for the financial or other advantage of the perpetrator or facilitator, and/or through violence or the threat of violence.

The abuse can be perpetrated by males or females, and children or adults. It can be a one-off occurrence or a series of incidents over time and range from opportunistic to complex organised abuse.

The victim can be exploited even when the activity appears to be consensual. It does not always involve physical contact and can happen online. For example, young people may be forced or manipulated into transporting drugs or money through county lines, into committing vehicle crime or serious crimes to others, to work in cannabis factories, forced to shoplift or pickpocket, or to threaten other young people.

Staff should make themselves aware of issues surrounding County Lines. Children can become trapped by this type of exploitation as they or their families are threatened with violence or coerced into debts, into carrying weapons or having weapons as a form of protection. They need to be treated as victims for being vulnerable, despite the fact they might have committed crimes themselves.

CCE can differ for girls, having different indicators, however girls are at risk too. Both girls and boys as victims of CCE are at a higher risk of sexual exploitation.

Child Sexual Exploitation

CSE is a form of child sexual abuse. Sexual abuse may involve physical contact, including assault by penetration (for example, rape or oral sex) or nonpenetrative acts such as masturbation, kissing, rubbing, and touching outside clothing. It may include non-contact activities, such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse including via the internet.

It can occur over time or be a one-off occurrence, and may happen without the child's immediate knowledge e.g. through others sharing videos or images of them on social media.

CSE can affect any child, who has been coerced into engaging in sexual activities. This includes 16- and 17-year-olds who can legally consent to have sex. Some children may not realise they are being exploited e.g. they believe they are in a genuine romantic relationship.

If a member of staff suspects CCE or CSE, they will discuss this with the DSL. The DSL will trigger the local safeguarding procedures, including a referral to the local authority's children's social care team and the police, if appropriate.

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy because of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing, and shelter (including exclusion from home or abandonment). protect a child from physical and emotional harm or danger. ensure adequate supervision (including the use of inadequate caregivers) or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

(Keeping Children Safe in Education: Statutory Guidance for Schools and Colleges (DfE 2022))

We must undertake the following procedure if a pupil makes a disclosure to them:

- Listen to the pupil
- Remain calm
- Offer reassurance
- Do not ask the pupil to remove or adjust clothing if bruises are observed
- Do not ask leading questions
- Let the pupil speak freely
- Accept what has been told them without challenge
- Do not offer opinion or criticize or lay blame
- Reassure the pupil at the end of the disclosure telling them that they have done the right thing
- Do not promise confidentiality but inform them that other people need to be told
- Record accurately and factually what the child has said in note form
- Record observed injuries or bruises on a map of the body
- Submit a completed incident record sheet to the designated person who will seek advice from the Local Authority Designated Officer

We must undertake the following procedure if we suspect a child may be a victim of abuse:

- Record accurately and factually what they have seen in note form.
- Submit a completed incident record sheet to the DSL.

8 Safeguarding Issues

8.1 We are aware that safeguarding issues can manifest themselves via **Child-on-Child abuse** in the form of:

- bullying (including cyberbullying, prejudiced-based and discriminatory bullying) (**see Anti-Bullying and Anti-Cyberbullying policy**).
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm and an online element which facilitates, threatens and/or encourages physical abuse.
- abuse in intimate personal relationships between peers.
- sexual violence, such as rape, assault by penetration and sexual assault or an online element which facilitates, threatens and/or encourages sexual violence (**see Dealing with Sexual Violence and Sexual Harassment policy**).
- engaging in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party
- sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be stand-alone or part of a broader pattern of abuse.
- upskirting (**see Mobile Phone Safety and Acceptable Use policy**), which is now a new criminal offence following the introduction of the Voyeurism (Offences) Act 2019, typically involves taking a picture under a person's clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm (We must be aware that a very young pupil or one with SEND may be aware that she has been the victim of this act but might be intimidated or unaware of her right to complain).
- 'sexting' also known as youth produced sexual imagery is defined as the production and specifically the consensual and non-consensual sharing of nude and semi-nude images and/or videos, sharing of sexual photos and videos (nude or nearly nude images and/or sexual acts) of young people who are under the age of 18 (**see Mobile Phone Safety and Acceptable Use policy**) and
- initiation/hazing type violence and rituals (including an online element) such as: activities involving harassment, abuse or humiliation used as a way of initiating a person into a group.

8.2 We ensure that all school staff must be aware of indicators, which may signal that children are at risk from, or are involved

with **serious violent crime** such as:

- increased absence from school.
- a change in friendships or relationships with older individuals or groups.
- a significant decline in performance.
- signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries.
- the possession of unexplained gifts or new possessions which could indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs

8.3 We are aware that **female genital mutilation (FGM)** is a form of child abuse and violence against women and affects girls particularly from North African countries. It is illegal in England and Wales to allow girls to undergo this practice, which involves the 'partial or total removal of the external female genitalia for non-medical reasons'.

8.4 We are aware that section 5b of the FGM Act 2003 has introduced a mandatory reporting duty which requires health and social care professionals and teachers in England and Wales to report to the police when a girl under the age of 18 informs them that FGM has been carried out on them or if they observe physical signs that FGM has been carried out. The signs to look out for are:

- Difficulty walking, standing, or sitting.
- Spending longer in the bathroom or toilet.
- Appearing withdrawn, anxious, or depressed.
- Displaying unusual behaviour after an absence from school or college.
- Being particularly reluctant to undergo normal medical examinations.
- Asking for help but may not be explicit about the problem due to embarrassment or fear.

8.5 Mandatory reporting duty does not apply if a person suspects that FGM has been carried out or whether they consider a girl may be at risk of FGM. In this instant we are expected to follow local safeguarding procedures. School staff who fail to comply with the mandatory duty face disciplinary procedures.

8.6 We are aware that '**so-called 'honor-based' violence (HBV)** encompasses incidents or crimes which have been committed to protect or defend the honor of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing. Abuse committed in the context of preserving 'honor' often involves a wider network of family or community pressure and can include multiple perpetrators.'

8.7 School staff who have a concern regarding a child that might be at risk of HBV or who has suffered from HBV will report their concern to the DSL or deputy DSL.

8.8 We are aware that safeguarding incidents and/or behaviours can be associated with factors outside the school and/or can occur between children outside the school. We must consider, always, the context within which such incidents and/or behaviours occur. This is known as '**contextual safeguarding**, which simply means assessments of children considering whether wider environmental factors are present in a child's life that are a threat to their safety and/or welfare.'

8.9 We are aware that '**Child sexual exploitation' (see Policy)** is a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact. it can also occur using technology.' We will report any concerns we may have regarding a pupil being possibly sexually exploited.

(Child sexual exploitation: Definition and a guide for practitioners, local leaders and decision makers working to protect children from child sexual exploitation (DfE February 2017))

8.10 We ensure all school staff are aware of the **Behaviour** policy which is annually reviewed. We realise that pupils behaviour improves and they feel safer and happier in school if school staff consistently apply this policy and maintain regular classroom routines.

8.11 We strongly endorse the banning of all forms of **corporal punishment** which has been defined as 'the use of physical force causing pain, but not wounds, as a means of discipline'.

8.12 We are aware that we have the right to use **reasonable force (see Positive Handling (Restraint of Pupils) policy)** to control or restrain pupils in order to prevent personal injury, damage to property or the prevention of a criminal offence being committed but not as a means of disciplining pupils.

8.13 We ensure all school staff are aware of systems that support safeguarding which is explained to them as part of staff induction. (see **School Staff Code of Conduct policy**).

8.14 We have a duty to ensure that 'all children, regardless of their circumstances, are entitled to a full time education which is suitable to their age, ability, aptitude and any special educational needs they may have. **Children missing education (see Policy)** are at significant risk of underachieving, being victims of abuse and becoming NEET (not in education, employment or training) later in life.' (Children Missing Education: statutory guidance for local authorities (DfE)).

Children missing from education, particularly persistently, can act as a vital warning sign to a range of safeguarding issues including neglect, sexual abuse, and child sexual and criminal exploitation. The school's response to children missing from education supports identifying such abuse and also helps prevent the risk of them going missing in the future. This includes when problems are first emerging but also where children are already known to local authority children's social care and they have a social worker (such as on a child in need or child protection plan, or as a looked after child), where going missing from education may increase known safeguarding risks within the family or in the community.

8.15 We understand that children that are particularly at risk of missing education are:

- pupils at risk of harm/neglect
- children of Gypsy, Roma, and Traveler families
- families of Armed Forces staff
- missing children/runaways
- children and young people supervised by the Youth Justice System
- children who cease to attend a school

8.16 We recognise that anyone who meets children such as the Headteacher, teaching staff, support staff, volunteers, and contractors are vulnerable to accusations of abuse.

8.17 We acknowledge that dealing with **allegations** is a stressful, demanding, complex and delicate process for all involved. But we will ensure that all allegations will be taken seriously and investigated immediately and impartially in order to provide instant and effective protection for the child concerned and to provide support for the person who is the subject of the allegation. 'The procedures for dealing with allegations need to be applied with common sense and judgement. The following definitions will be used when determining the outcome of allegation investigations:

- **substantiated:** there is sufficient evidence to prove the allegation.
- **malicious:** there is sufficient evidence to disprove the allegation and there has been a deliberate act to deceive.
- **false:** there is sufficient evidence to disprove the allegation.
- **unsubstantiated:** there is insufficient evidence to either prove or disprove the allegation but the term, therefore, does not imply guilt or innocence.
- **unfounded:** where there is no evidence or proper basis which supports the allegation being made.

8.18 We have a statutory duty of care to safeguarding the welfare of children and vulnerable adults and providing them with a safe learning environment. We have created and maintain a **culture of safe recruitment (see Safer Recruitment and Retention policy)** by establishing and maintaining correct procedures that will 'help deter, reject or identify people who might abuse children.'

8.19 We are committed in establishing and maintaining correct procedures and checks (**see Disclosure and Barring Checks policy**) for safer recruitment for all new staff, supply staff, contractors, volunteers and governors and the establishment of sound working relationships with parents and support agencies.

8.20 We ensure that photographs taken in school or off-site by school staff of pupils working or taking part in school events will only be taken by using a school camera. Under no circumstance will a member of the school staff use their mobile phone to photograph pupils or to send the image to parents. We believe we have a duty to prevent the unauthorised taking and publication of images of school staff.

8.21 We deal with all incidents of **sexting (see Mobile Phone Safety and Acceptable Use policy)** that involves the consensual and non-consensual sharing of nude and semi-nude images and/or videos via mobiles or over the Internet.'

8.22 We have a duty to ensure the **online safety (see Acceptable Use of ICT policy)** of all pupils and school staff. We also have a duty to provide pupils with quality Internet access as part of their learning experience across all curricular areas. The use of the Internet is an invaluable tool in the development of lifelong learning skills.

It is essential that children are safeguarded from potentially harmful and inappropriate online material. An effective whole school and college approach to online safety empowers a school or college to protect and educate pupils, students, and staff in their use of technology and establishes mechanisms to identify, intervene in, and escalate any concerns where appropriate.

The breadth of issues classified within online safety is considerable, but classified into:

- content: being exposed to illegal, inappropriate or harmful content, for example: pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation and extremism.
- contact: being subjected to harmful online interaction with other users; for example: peer to peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes.
- conduct: personal online behaviour that increases the likelihood of, or causes, harm; for example, making, sending and receiving explicit images (e.g consensual and non-consensual sharing of nudes and semi-nudes and/or pornography, sharing other explicit images and online bullying).
- commerce - risks such as online gambling, inappropriate advertising, phishing and or financial scams. If you feel your pupils, students or staff are at risk, please report it to the Anti-Phishing Working Group (<https://apwg.org/>).

8.23 We believe that correctly used **Internet access** will not only raise standards, but it will support teacher's professional work and it will enhance the school's management information and business administration systems.

8.24 We acknowledge that the increased provision of the Internet in and out of school brings with it the need to ensure that learners are safe. We need to teach pupils how to evaluate Internet information and to take care of their own safety and security.

8.25 E-Safety (see Policy), which encompasses Internet technologies and electronic communications, will educate pupils about the benefits and risks of using technology and provides safeguards and awareness to enable them to control their online experience.

8.26 We work hard to ensure children are safe from **knife crime** at school, but we realise that the most dangerous time for children is when they leave the schools premises.

8.27 We believe that to prevent children getting involved with knives is to:

- identify, support, help and protect children on the school site.
- to teach children about the dangers of knives and related dangers from an early age.
- review our PSHE curriculum and to see how this reflects local safeguarding issues and trends especially knife crime.
- introduce anti-knife crime sessions into the PSHE curriculum and anti-knife crime workshops for parents
- engage with parents and highlight ways that they can talk to their children about all safeguarding issues.
- work with and have close links with parents, the police, the local authority, health, youth services, welfare services, housing services and the local community.

8.28 We have a duty to safeguard children, young people, and families from **violent extremism (see Prevent Duty - Dealing with Extremism and Radicalisation policy)**. We are aware that there are extremists' groups within our country who wish to radicalise vulnerable children and to involve them in terrorism or in activity in support of terrorism. Periodic risk assessments are undertaken to assess the risk of pupils being drawn into terrorism. School staff must be aware of the increased risk of online radicalisation, and alert to changes in pupil's behaviour. Any concerns will be reported to the Designated Safeguarding Lead.

8.29 We are aware that under the '**Counter-Terrorism and Security Act 2015**' we have the duty to have 'due regard to the need to prevent people from being drawn into terrorism'. This duty is known as the Prevent duty and we believe it is essential that school staff are able to identify those who may be vulnerable to radicalisation or being influenced by extremist views, and then to know what to do when they are identified.

8.30 We provide a safe environment where we promote pupils' welfare. Within this environment we work hard to build pupils' resilience to radicalisation and extremism by promoting fundamental **British values (see**

Promoting British Values policy) and for everyone to understand the risks associated with terrorism. We want pupils to develop their knowledge and skills to challenge extremist views.

8.31 Advice and support to protecting children from the risk of radicalisation is provided for all school staff by the **Designated Safeguarding Lead** who has undertaken Prevent awareness training (Workshop to Raise Awareness of Prevent). Online general awareness training will also be provided by the Channel programme for all school staff who provide support to those who have been identified as being vulnerable to being drawn into terrorism.

8.32 We recognise **whistle blowing (see Policy)** is the reporting of suspected wrongdoing in the workplace which is regarded as making a disclosure in the public interest. We actively encourage all school staff and visitors to school to report any serious concerns they may have about any aspect of the school such as:

- health and safety concerns
- damage to the school environment
- a criminal offence that has taken place or is about to take place
- disobeying the law
- the covering up of a wrongdoing
- the conduct of its staff or others acting on behalf of the school.

8.33 We are committed to providing quality education for all our pupils which are 'Looked After Children'. It is nationally recognised that 'Looked after Children' significantly underachieve and are at greater risk of exclusion when compared with their peers. Therefore, we believe we have a duty 'to safeguard 'Looked After Children', to promote their educational achievements and to ensure they are able to achieve and reach their full potential'. (Children Act 2004).

8.34 We are aware that children with **special educational needs (see Policy)** and disabilities can face additional safeguarding challenges. We have a duty to ensure school staff have the skills, knowledge and understanding to be alert to the additional safeguarding challenges to children with special educational needs and disabilities. All school staff are trained to be alert to the potential need for early help for a child who:

- is disabled and has specific additional needs.
- has special educational needs (whether they have a statutory Education, Health and Care Plan)

9 Curriculum

9.1 We will ensure that pupils are taught about safeguarding, including online safety as part of a broad and balanced curriculum by covering relevant issues through:

- Relationships and Sex Education (formerly known as Sex and Relationship Education)
- Personal, Social, Health and Economic (PSHE) Education

- Health Education

9.2 We want to equip children with the necessary skills and awareness to stay safe from abuse. We want them to understand risk, to become more resilient and know where to go for help and support not only in school but also in the local community.

10.0 Parents/Carers

10.1 We are committed in establishing and maintaining an ethos where children and **parents/carers** feel secure in being able to talk confidently to school staff about any concerns or fears they may have, knowing that they will be taken seriously.

10.2 We have a duty to ensure that under no circumstances will we **disclose** to a **parent/carer** any information held on a child if this would put the child at risk of significant harm.

10.3 We are aware that more than 90% of abuse cases involve someone a child already knows such as a family member or close friend. We agree with the advice from NSPCC that 'parents should not leave it up to teachers' to talk to children about sexual abuse but to talk to them themselves.

10.4 Therefore, we will organise awareness training workshops for parents outlining various ways and opportunities for them to approach this delicate subject.

11 Training

11.1 We will ensure that all adults in the school community attends regular **awareness training** on a wide range of safeguarding topics and that both Designated Safeguarding Leads undertake two-yearly training in their role.

11.2 We:

Have in place appropriate training for all safeguarding policies that is undertaken by a registered training provider

Ensure all school personal have received appropriate training in all safeguarding policies.

Ensure the content of all training is correct, delivered well and engages staff as we believe that more engaging training is, the better the outcomes that we need to measure. Can provide data that evidences staff understanding by using a simple, short, multiple choice test through one of the following applications such as : Google forms, Microsoft forms, Kahoot or Serving Monkey .

Have in place evidence for all staff that highlights the knowledge gaps in the training; that shows that knowledge gaps are corrected.

12 Data Protection

Knife crime is an increasing safeguarding risk to children both at school and in their local communities. Schools alone cannot solve knife crime, but they do have a role to play in helping to prevent knife crime becoming part of children's lives.

Knife crime is a term commonly used to refer to street-based knife assaults and knife carrying.

Knife crime has a huge impact on children and the communities in which they live, and not just in London but nationally. Knife crime is a societal problem and no single agency, including schools, can solve knife crime on its own.

Schools have a role to play in stopping knife crime becoming part of children's lives by identifying, supporting, helping, and protecting children on the school site and to teach them about the dangers of knives and related dangers. But to overcome this problem and to protect children all support agencies, parents/carers and social media need to work together.

Schools must reassure school staff that there are occasions when it is entirely appropriate, proper and legal for school staff to have physical contact with pupils, but it is crucial that they only do so in ways appropriate to their professional role.

The DFE document 'Use of Reasonable Force' clearly states that it is "not illegal to touch a pupil. There are occasions when physical contact, other than reasonable force, with a pupil is proper and necessary. Examples of where touching a pupil might be proper or necessary: holding the hand of the child at the front/back of the line when going to assembly or when walking together around the school. when comforting a distressed pupil. when a pupil is being congratulated or praised. to demonstrate how to use a musical instrument. to demonstrate exercises or techniques during PE lessons or sports coaching. to give first aid."

It is impractical to have in place a 'no touch' policy. School staff should be allowed to respond to the needs of pupils at any time. The contact should be of limited duration, appropriate to the pupil's age, stage of development, gender, ethnicity, and background. In most schools appropriate physical contact occurs most often with younger pupils or pupils with special educational needs and disabilities. We are aware that:

- Novel Coronavirus (COVID-19):
 - is a new type of virus with no known vaccine but people will get better with enough rest, water to drink and medicine for pain.
 - infection is not serious for most people including children.
 - was first identified in Wuhan City, China in January 2020.
 - has an incubation period between 2 and 14 days.
 - has symptoms like other respiratory viruses such as the flu which may include cough, shortness of breath or fever.
 - can cause more severe symptoms in people with weakened immune systems, older people, and those with long-term conditions such as diabetes, cancer, and chronic lung disease.
 - infection usually occurs through close contact (less than 2 meters away) with a person who has the infection.

- infection can also occur by touching contaminated surfaces if people do not wash their hands
- from 20th March 2020 parents have been asked to keep their children home from school and for schools to remain open only for those children of workers critical to the COVID-19 response.
- schools and all childcare providers have been asked to continue to provide care for a limited number of children who are vulnerable and children whose parents are key workers.
- ‘during the COVID-19 outbreak **vulnerable** children and young people are defined as those who:
 - are assessed as being in need under section 17 of the Children Act 1989, including children who have a child in need plan, a child protection plan or who are a looked after child.
 - have an education, health, and care (EHC) plan whose needs cannot be met safely in the home environment.
 - have been assessed as otherwise vulnerable by educational providers or local authorities (including children’s social care services), and who are therefore in need of continued education provision which might include children on the edge of receiving support from children’s social care services, adopted children, or those who are young carers, and others at the provider and local authority discretion’.

 - health and social care.
 - education and childcare.
 - key public services.
 - local and national government.
 - food and other necessary goods.
 - public safety and national security.
 - transport.
 - utilities, communication, and financial services

We have a duty to continue to help to protect vulnerable children during this period of school closure by working with children’s social workers and with the local authority virtual school head for looked-after and previously looked-after children.

We are aware that parents of vulnerable children do not have to bring their children to school during this period, but we make every effort to encourage them to do so.

We have in place a senior member of staff who tries to keep in contact with them every other day either by phone or email and failing that we report to social services.

The practical application of this policy will be reviewed annually or when the need arises by the Head Teacher, the Executive Headteacher/Head of Education and the Proprietor.

Appendix 1 - Dealing with Disclosure

Staff must not give absolute guarantees of confidentiality to those who report concerns about the possible abuse of a child and or young person or the potential for significant harm. However, staff and fostering household can give assurances that the information will be passed to only the relevant persons who need to know to ensure the right action is taken to address the concerns and to safeguard the child or young person.

Staff must at all times ensure that any information that is disclosed/shared is recorded and reported as set out in the Your Chapter's Reporting and Recording procedures.

If children and young people wish to talk to staff about being hurt and or previous abuse the following guidelines should be followed:

- Reassure the child/young person that they were right to tell and that you will do what you can to keep them safe.
- Try to explain in a way that the child /young person can understand being aware of cultural differences and cognitive ability.
- Listen to the child/young person and maintain eye contact. allow the child/young person to talk, but do not press for information. do not ask any questions about the disclosure but listen.
- Explain that you cannot keep confidentiality - let the child/young person know that other people will have to be told so that the abuse can stop but that will only be on a 'need to know basis.
- DO NOT interrogate the child/young person or ask leading questions.

- DO NOT prompt.
- DO NOT ask the child/young person to repeat their account to anyone.
- Explain that you need to get help to keep the child/young person safe.
- DO NOT talk to the alleged abuser.
- Make an accurate record of information / time / presentation immediately.
- Report this to your line manager at the earliest available opportunity and at the latest by the end of your shift/day on which the concerns arise and ensure you sign your account.
- Should the matter reach a court case you should read the Interim Guidelines on Prosecuting Cases of CSA issued by the Director of Public Prosecution on 11 June 2013 and ensure the child/young person is afforded the protection contained within these guidelines.

Appendix 2 - Procedure for dealing with Safeguarding Children Concerns

Dealing with allegations/observations of abuse, neglect or exploitation which arise in the community

If information is received either directly or via a third party that a young person has been abused by a person known to them in the Community, this will be taken seriously and dealt with in line with Appendix 10.

If the Head Teacher has any doubts about whether the information received constitutes a child safeguarding concern, they **must** consult with the DSL. If following this consultation, it is still unclear whether the situation requires a safeguarding response then the DSL **must** consult with the local authority designated officer to agree a way forward. The DSL will keep a record of this consultation.

If the allegation relates to sexual and or criminal exploitation, the above procedure applies **except** that the Manager and Head Teacher will consult with Children Social Care to agree an appropriate level of response (either via Safeguarding Children Procedures or through the young person's ongoing placement/care plan).

Appendix 3 - Procedures for Managing Allegation Against Staff

As detailed in Your Chapter Essential Standards, the organisation will ensure that appropriate safeguarding practice is in place, that children and young people do not receive unsafe care or treatment or be put at risk of any potential harm. Your Chapter will ensure that all steps are taken to safeguard children and young people and that adults are safe to work with children and young people. We recognise that sometimes the behaviour of adults may lead to allegations being made. Managing allegations against staff can be difficult, stressful, and challenging but Your Chapter's commitment to safeguard and protect children and young people is of paramount importance.

No disciplinary or any other action will be taken without a full and proper investigation, during which the accused staff member will be given the opportunity to respond to any allegation which has been made.

If the allegation of professional abuse has come from a child or a young person then the support detailed within Appendix 2 (Dealing with a Disclosure) must be followed ensuring that they receive the correct support.

Upon receipt of allegation against staff Head Teacher, must complete the safeguarding incident record and forward onto the DSL for further comment and an agreed plan of action. The DSL in turn notify and liaise with the LADO who will decide how the allegations will be progressed.

If the DSL is unavailable the responsible manager must alert the CEO and must report the matter immediately but within 24 hours of the allegation coming to light to the LADO/DO at the same time Ofsted, placing local authority/s must be informed by the Head Teacher in line with Regulation 40 of the Children Homes Regulations 2015. Under no circumstances should there be any avoidable delay in progressing concerns about a child or young person's safety and protection.

The DSL should at the same time share with the LADO/DO any previous relevant assessment and or allegations against the staff member or fostering household which could suggest the staff member may present a risk to children and young people.

Once the information is shared the DSL and LADO/DO will jointly evaluate the allegation along with any other relevant agencies such as the police and children social care as well Ofsted. The focus of this will be to determine the nature of the concerns and safeguarding for the child. As the protection and safeguarding of children and young people is the primary concern, the DSL and LADO/DO must ensure consideration is given to the support for the child or young person as well as capturing the child/young person's views and wishes.

If, it is agreed, that the matter meets the threshold and will be progressed as a section 47 safeguarding concern, it will be managed in line with the existing Safeguarding Partnerships, and Welsh Safeguarding Board procedures. In this circumstance the DSL and or the respective Head Teacher will update Ofsted. The placing social worker will also be informed if they were not involved in the strategy meeting/discussions. This should be verbal and confirmed in writing within 24 hours of the meeting/discussions.

In cases where a formal strategy meeting/discussion is not considered appropriate because the threshold of 'significant harm' is not reached, but a police investigation might be needed, the LADO/DO should nevertheless conduct a similar discussion with the police, DSL, and any other agencies involved with the child to evaluate the allegation and decide how it should be dealt with.

Once the allegation come to light the member of staff must be informed of the allegation/concern and of the action being taken. However, it is important that the Head Teacher and or DSL do not get drawn into lengthy discussions with the staff member so as not to compromise any investigation whether criminal or otherwise. If the member of staff attempts to obtain further information, this must be resisted, and the staff informed about the process and signposted to these procedures. It may be that the staff member, as an immediate action, will be asked to leave the setting as a means of securing the child/young person's safety and any evidence but also to protect the staff member.

A decision will be made once the worker leaves the setting whether they will be suspended. If the decision is to suspend, then the Head Teacher or DSL will update the member of staff within 24 hours detailing the next steps. However, a suspension should not be taken as a disciplinary sanction but a precautionary measure to protect all

concerned and where allowing the employee to continue working during an investigation may compromise the integrity of the investigative process.

During suspension, employees are prohibited from attending the workplace other than for attending meetings/hearings concerning the matter and should not contact any work colleagues or young people except for their nominated representative, in most circumstances this will be a member of the HR Department. Any meetings that are required to be held, will be predominantly held at Your Chapter Head Office to ensure no contact with children and young people during the suspension. While each case will be dealt with dependent on the circumstances any period of suspension necessary will be as brief as possible and kept under review. Please refer to the Disciplinary Procedure.

Re-deployment pending an investigation

In some cases, for example where the allegation is that a child was hurt during physical intervention, the DSL following consultation with the LADO/DO and in some cases Ofsted, a decision could be to re-deploy the staff member into another service/department and undertake supervised duties not entailing one to one time with children and young people. Each case will be looked at individually with a clear record of how the decision was made and who was involved.

Resignations and ‘compromise agreements’

The fact that the member of staff tenders their resignation, or ceases to provide their services, must not prevent an allegation being followed up in accordance with these procedures. It is important that every effort is made to reach a conclusion in all cases of allegations relating to the safety or welfare of children including any in which the individual concerned refuses to co-operate with the process. Wherever possible the staff should be given a full opportunity to answer the allegation and make representations about it, but the process of recording the allegation and any supporting evidence and reaching a judgement about whether it can be regarded as substantiated based on all the information available should continue even if that cannot be done or the person does not co-operate. It may be difficult to reach a conclusion in those circumstances, and it may not be possible to apply any disciplinary sanctions if the staff or fostering household’s period of notice expires before the process is complete, but it is important to reach and record a conclusion wherever possible.

By the same token so called ‘compromise agreements’ by which a person agrees to resign, the employer agrees not to pursue disciplinary action, and both parties agree a form of words to be used in any future reference, must not be used in these cases. In any event, such an agreement will not prevent a thorough police investigation where appropriate. Nor can it override the Your Chapter’s duty to make a referral to the Vetting and Barring Scheme and or the professional body such as Health Care Professional Council (HCPC), Teaching Regulation Agency (TRA) and Social Work England where circumstances require this. Furthermore, this would not be in line with the underlining regulations governing services.

Additional Considerations

If the allegation is about the Head Teacher, the same procedures must be followed. However, the allegations must be reported to the DSL directly who, with the CEO, will decide about the managers duties.

If the allegation is about the DSL then the incident should be reported directly to the CEO and vice versa if the incident is about the CEO, the Chairman of Your Chapter, Riz Khan, should be informed - riz@inspirecapital.co.uk.

Where parents of a child or young person are involved in their care, they should be told about the allegation as soon as possible if they do not know about it already (the placing authority social worker can decide who will do this). They should be kept informed about the progress of a case and told the outcomes where there is not a criminal prosecution. That includes the outcome of any disciplinary process.

The DSL within Your Chapter will nominate an officer (usually a manager) to keep the person who is subject to the allegation informed of the progress of the case and arrange to provide appropriate support to the individual while the case is ongoing.

Conclusion of investigation

At the end of an enquiry a strategy discussion/meeting should be held by the LADO/DSL (or equivalent) to draw a line under the investigation and determine next steps. These actions may include prosecution or a decision to refer to the Vetting and Barring Scheme and professional bodies where necessary. At this stage, with the permission of the statutory investigating agencies, Your Chapter will initiate its own disciplinary investigation and hearing where this has been concluded is appropriate. (See Your Chapter's Disciplinary Procedures) for more information about this stage of the process.

The concluding strategy meeting should also determine the outcome of the investigation and set out clearly whether the allegation was substantiated, unfounded, malicious, or False. Furthermore, the DSL must ensure that a detailed evaluation and analysis is completed which must include lessons learnt, impact for practice and whether the need to review the organisation's policies and procedures is identified. In most cases the regulator and LADO/DSL will request a copy of the concluding internal management report. Managers must ensure this is made available. This must be agreed at the strategy meeting and any communication with the regulator.

Wherever, possible a meeting must be held between the worker and investigating officer and line manager to discuss the learning for the work and any plan of support to assist the worker's ongoing development.

Record keeping in respect of allegations against staff

Your Chapter will keep a clear and comprehensive summary of any allegations made, where the behaviour of the staff resulted in the child being harmed or may have harm a child, that they pose a risk to the child and that they have committed a criminal offense against the child. The records will include details of how the allegation was followed up and resolved, and details of any action taken, and decisions reached. This information will be retained, on the staff member's personnel file as well as making sure the staff member receives a copy of the records. The information will be retained on file, including for people who leave the organisation, at least until the person reaches normal retirement age or for 10 years if that will be longer.

The purpose of the record is to enable accurate information to be given in response to any future request for a reference. It will provide clarification in cases where a future DBS disclosure reveals information from the police that an allegation was made but did not result in a prosecution or a conviction. And it will prevent unnecessary re-investigation if, as sometimes happens, allegations re-surface after a period.

Concerns that do not meet the harm threshold

We promote an open and transparent culture in which all concerns about all adults working in or on behalf of the school or college (including supply teachers, volunteers and contractors) are dealt with promptly and appropriately.

Creating a culture in which all concerns about adults (including allegations that do not meet the harms threshold - are shared responsibly and with the right person, recorded and dealt with appropriately, is critical. If implemented correctly, this should encourage an open and transparent culture; enable schools and colleges to identify concerning, problematic or inappropriate behaviour early; minimise the risk of abuse; and ensure that adults working in or on behalf of the school or college are clear about professional boundaries and act within these boundaries, and in accordance with the ethos and values of the institution.

The term 'low-level' concern does not mean that it is insignificant, it means that the behaviour towards a child does not meet the threshold set out at paragraph 338. A low-level concern is any concern – no matter how small, and even if no more than causing a sense of unease or a 'nagging doubt' - that an adult working in or on behalf of the school or college may have acted in a way that:

- is inconsistent with the staff code of conduct, including inappropriate conduct outside of work, and
- does not meet the allegations threshold or is otherwise not considered serious enough to consider a referral to the LADO.

Examples of such behaviour could include, but are not limited to:

- being over friendly with children;
- having favourites;
- taking photographs of children on their mobile phone;
- engaging with a child on a one-to-one basis in a secluded area or behind a closed door; or,
- using inappropriate sexualised, intimidating or offensive language

See *Staff code of conduct policy*.

We create an environment where staff are encouraged and feel confident to self-refer, where, for example, they have found themselves in a situation which could be misinterpreted, might appear compromising to others, and/or on reflection they believe they have behaved in such a way that they consider falls below the expected professional standards.

Low-level concerns about a member of staff should be **reported** to the designated safeguarding lead (or deputy). Where a low-level concern is raised about the designated safeguarding lead, it should be shared with the headteacher.

All low-level concerns should be **recorded** in writing by the designated safeguarding lead (or deputy). The record should include details of the concern, the context in which the concern arose, and action taken. The name of the individual sharing their concerns should also be noted, if the individual wishes to remain anonymous then that should be respected as far as reasonably possible.

The records must be kept confidential, held securely and comply with the Data Protection Act 2018 and the UK General Data Protection Regulation (UK GDPR). They should be reviewed so that potential patterns of concerning, problematic or inappropriate behaviour can be identified. Where a pattern of such behaviour is identified, the school or college should decide on a course of action, either through its disciplinary procedures or where a pattern of behaviour moves from a concern to meeting the harms threshold, in which case it should be referred to the LADO. Consideration should also be given to whether there are wider cultural issues within the school or college that enabled the behaviour to occur and where appropriate policies could be revised or extra training delivered to minimise the risk of it happening again.

Appendix 4 - Procedure for dealing with Child-on-Child abuse

When an allegation is made by a child/young person against another, members of staff and fostering households should consider whether the allegation is a complaint or whether it raises a safeguarding concern. If there is a safeguarding concern the DSL should be informed.

The DSL must alert and report the allegation to the respective social workers of both children and young people involved to assess and determine the way forward. If the allegation indicates a potential criminal offence has taken place, the police should be contacted at the earliest opportunity and parents (if applicable) informed.

The information and situation should be assessed. This assessment should consider the risks pose and whether the risks are significant, whether, to keep children and young people the alleged perpetrator must be moved from the placement. Any such decision must be risk assessed and handled sensitively being mindful of the need to support both victim and perpetrator.

The Head Teacher and DSL must consider completing a risk assessment including a safeguarding risk assessment to take account of any preventive strategies needed. This should be used to inform an interim supervision plan. Any supervision plan must address the resources necessary to keep all children and young people safe including increased staffing. The supervision and or care plan must be monitored and updated as necessary and should include evaluation of the effectiveness of the plan and risk assessment.

A record of the allegation must be made but no attempt at this stage should be made to investigate the circumstances. The records should include details of the date, time, location, and circumstances in which the allegation was made. The record, should, as far as possible, be a verbatim account of what the child/young person said. Staff should not 'translate' the child/young person's account into adult language or censor it or put their own

interpretation on what has been alleged. In addition, it should be legible, clear, concise, and free from jargon and abbreviations.

The Head Teacher, DSL, social worker with the child/young person's involvement(victim) make decisions about the support they need as well as the action necessary in respect of the alleged perpetrator.

Where neither Children's Social Care nor the police accept the allegation, the Head Teacher and DSL must nevertheless review the situation to identify whether any additional safeguards and support is necessary to promote all children and young people's welfare.

It is important that the child or young person is kept informed and updated of all action and progress of the concern/allegation. At conclusion, the child and or young person must be informed of the outcome verbally and confirmed in writing. With a copy of the records placed on their case file.

Appendix 5 - Procedures for dealing with incidents of sexting

Disclosures about sexual imagery can happen in a variety of ways. The child or young person affected may inform a class teacher, a friend, member of staff, social worker, DSL etc. They may report through a parent or fostering household or directly to the police if they are confident to do so.

All members of staff and fostering household should be made aware of how to recognise and refer any disclosures of incidents involving sexual imagery. This will be supported through training.

Any direct disclosure by a child or young person must be taken very seriously. A child or young person who discloses they are the subject of sexual imagery is likely to be embarrassed and worried about the consequences. It is likely that disclosure is a last resort, and they may have already tried to resolve the issue themselves. Care must be taken to reassure and support the child or young person.

Initial review meeting

The initial review meeting should consider the evidence and aim to establish:

- Whether there is an immediate risk to the child/young person
- If a referral should be made to the police and/or children's social care
- If it is necessary to view the imagery to safeguard the child/young person – in most cases, imagery should not be viewed
- What further information is required to decide on the best response
- Whether the imagery has been shared widely and via what services and/or platforms. This may be unknown.

- Whether immediate action should be taken to delete or remove images from devices or online services in consultation with DSL, police, and others
- Any relevant facts about the children/young people involved which would influence risk assessment
- Whether to contact parents

An immediate referral to police and/or children’s social care should be made if at this initial stage if:

- The incident involves an adult
- There is reason to believe that a young person has been coerced, blackmailed, or groomed, or if there are concerns about their capacity to consent (for example owing to special educational needs)
- Whether the imagery suggests from information obtained that the content depicts sexual acts which are unusual for the young person’s developmental stage, or are violent
- The imagery involves sexual acts
- You have reason to believe a child/young person is at immediate risk of harm owing to the sharing of the imagery, for example, the young person is presenting as suicidal or self-harming.

Decision not to involve the police and children social care should only be made if the DSL is confidently that:

None of the above factors applies. If this is the case, the Head Teacher and or DSL may decide to respond to the incident without involving the police but should alert the social worker to the concern for their consideration. However, all staff and fostering household must be mindful that if further information/concerns come to light the incident could be escalated.

The decision to respond to the incident without involving the police or children’s social care would be made in cases when the DSL is confident that they have enough information to assess the risks to children and young people involved and the risks can be managed with support and activation of the behaviour management procedures.

The decision should be made by the DSL with input from the Head Teacher and input from other members of staff where appropriate. The decision should be recorded in line with Your Chapter reporting and recording policy, but it is important that the information is recorded on the children/young people’s case file.

Guidance on Retention Periods Type of record	Retention
<p>Child welfare concerns that your organisation refers on to children’s social care or the police.</p> <p>For example, this would include concerns about physical, sexual, emotional or neglect of a child, disclosures from a child about being abused or information from a third party which might suggest a child is being abused. concerns about a parent or another adult that uses your organisation, or a young person who has been abused by another young person.</p>	<p>The referral should be acknowledged in writing by children’s social care and your organisation keeps this on file.</p> <p>Records should be kept for 6 years after the last contact with the service user unless any of the exemptions apply (listed above) or if your organisation is required to comply with any other statutory requirements.</p>

<p>Child welfare concerns that your organisation decide, after consultation, do not necessitate a referral to children’s social care or the police. In such circumstances the organisation should make a record of the concern and the outcome. For example, where a child has been bullied, overly pushy parents or a very distressed child where the distress is unrelated to child abuse.</p>	<p>Destroy the record a year after the child/adult concerned ceases to use the service unless the child or adult are continuing to use your organisation.</p>
<p>Concerns about people (paid and unpaid) who work with children and young people, for example, allegations, convictions, disciplinary action, inappropriate behaviour towards children and young people. For example, where an employee has breached the code of conduct, a record of the behaviour, the action taken, and outcome should be recorded.</p>	<p>Personnel files and training records (including disciplinary records and working time records) - retain for 6 years after employment ceases. However, the records should be retained for a longer period if any of the following apply:</p> <p>There were concerns about the behaviour of an adult who was working with children where s/he behaved in a way that has harmed, or may have harmed, a child.</p> <p>The adult possibly committed a criminal offence against, or related to, a child.</p> <p>The adult behaved towards a child in a way that indicates s/he may pose a risk of harm to children</p> <p>In such circumstance’s records should be retained at least until the adult reaches normal retirement age, or for 10 years if that is longer.</p>
<p>Criminal Records Bureau disclosures obtained as part of the vetting process.</p>	<p>The actual disclosure form must be destroyed after 6 months. However, it is advisable that organisations keep a record of the date of the check, the reference number, the decision about</p>
